

Bulleen (3rd) vs. Waverley (2nd)

Meetings this season

R2: Waverley 88 def Bulleen 54
R15: Waverley 84 def Bulleen 80

From the Coaches

Elias Palioyiannis (Waverley)

Bulleen is a very talented group with the likes of Pearce, Tessari and the import duo of Boothe and Van den Adel. They have great size and shoot the ball well from the perimeter. We will need to do a good job of sharing the ball and understanding personal defence against such a good team. All 10 players will have to contribute at a high level if we are a chance to get game one.

Knox (4th) vs. Sunbury (1st)

Meetings this season

R7: Sunbury 63 def Knox 48
R15: Knox 69 def Sunbury 68

From the Coaches

Kennedy Kereama (Sunbury)

Firstly I will say how proud I am of how our team coped while both Josie and I were away with national commitments in the last month of the season. I cannot praise the coaching staff and playing group enough for their effort during my absence. They have done a great job to maintain a top spot and set us up for what should be a great finals series. The ladies have had a very good two weeks on the training court and the week off has given us the chance to reintroduce Josie back into the fold. You can feel the excitement around the team knowing that we are playing finals basketball and I feel like the team has found another level of intensity over the last week. The group seems hungry, however to beat Knox we will have to be at our best. Coach Shanahan has them playing good basketball and no doubt the added inclusion of Rebecca Ott would have lifted spirits and confidence. We are looking forward to a great game against a great opponent and expect it to be a tough finals series.

Matt Shanahan (Knox)

The group is excited about the opportunity of competing in the Semi final series against a quality opponent in Sunbury. Last weeks game verses Ringwood gave our group some valued experience in playoff basketball and I think we will definitely benefit from that game in this series. We have a lot of respect for Sunbury they're an extremely well balanced group and we will be looking at ways to disrupt there potent offensive attack.
