## **PART 1 – INTRODUCTION**

### **1.1 Background**

#### **1.1.1 Preamble**

The competition originated in 1988 and continues to flourish with men's and women's teams playing in separate divisions.

The League commenced under the name of 'The Victorian Women's Conference' in 1987. The men's and women's competitions were run independently as the Country Victorian Invitation Basketball League (CVIBL); the Victorian Basketball League (VBL Inc.) or the Women's Victorian Basketball League (WVBL) until 2000 when they were merged into the VBL. Coincidentally in 2000 and with the support of the VBL and Basketball Victoria, the Big V competition was created, being a conference of the Australian Basketball Association. In 2005, the Big V and VBL competition structure was re-branded as Big V and was brought under common management. Big V is the official senior elite and development state League that provides aspiring local participants the opportunity to develop via its highly competitive standards and well-promoted program.

Drawing on populated provincial centres as well as the metropolitan area of Melbourne, the Big V prides itself in taking its expertise in the development of the sport of basketball to the people in a manner, which identifies the League as truly community based.

#### **1.1.2 Aims**

The Big V aims to:

- (a) Conduct a state basketball representative competition for senior and youth players in Victoria in the most professional manner and to the highest standard possible;
- (b) Provide a representative basketball pathway for Associations and players, coaches and technical officials to develop and reach their potential, with the opportunity to progress to national and international levels.

### **1.2 Competition Structure**

The Big V consists of two competition streams: An Association elite stream which provides for Associations' highest level representative teams to compete on a fair basis and a player development stream, which by way of participation age restriction, enables Victoria's best youth players to develop in a competitive environment and provides for transition from junior to senior competition.

#### **1.2.1 Association elite stream**

This competition consists of several divisions of both men's and women's open age teams. The highest level of competition is Championship while those below are Division 1, Division 2, etc. as required to accommodate the total

number of accepted team entries by Associations. Associations may enter one team only of each gender in this stream. Associations who already participate in a level of competition<sup>#</sup> equivalent to or of a higher standard than Big V Championship are ineligible to enter this stream.

<sup>#</sup> Such competitions would be those in which FIBA Oceania requires a Foreign Player License for applicable players.

### **1.2.2 Player development stream**

This competition consists of several divisions of both men's and women's teams consisting of players who must be 23 years of age or younger in the year of competition. To clarify, for a player to be eligible their year of birth must be equal to or later than 23 subtracted from the competition year. For example for the 2019 season eligible players must have been born on January 1 (2019-23=1996) or later. The highest level of competition in this separate age restricted competition is the Victorian Youth Championship while those below are Youth League 1, Youth League 2, etc. or as otherwise decided by the Commission. Associations may enter one team only of each gender in this stream even if the Association does not have a team of that gender entered in the Association elite stream as a means of developing playing strength in order to enter or re-enter that stream, the age restriction still applies.

Any new or existing Association must have a senior team within 3 years of submitting a youth league team.

### **1.2.3 Conferences**

Where appropriate due to the number of teams competing in a division, it may be divided into conferences.

### **1.2.4 Application of Rules of Operation**

The Rules of Operation apply to all divisions. There are some differences and where this is the case it is noted in the Rules of Operation.

## **1.3 Divisional structure**

### **1.3.1 Principles**

Where a competition is played in more than one Division the following principles will be applied:

- (a) Teams re-entering the competition, should play in a division in which they are competitive on court and sufficiently resourced to maintain teams;
  - i. New or existing Associations wanting to enter a new team will submit an annual application for entry in the lowest division applicable to their application with a playing roster and address the guidelines in Rule 1.3.2 (a) by the date set by the Competitions Manager;
  - ii. A new senior team of an Association playing in a higher-level competition will be exempt from commencing in the lowest division applicable to their application.

(b) Elite Senior steam

- Championship/Divisional – Maximum 12 teams
- Lowest Division – No cap and open number of teams (minimum of 8)

(c) Youth Development Stream

- Youth Championships- Maximum 16 teams
- Youth League Divisional- Maximum 12 teams
- Lowest Division – No cap and open number of teams (minimum of 8)

(d) Where appropriate, the Committee will rule on a year to year basis the best means of operating the competition within a division, including home and away games break-up, use of conferences and other variables. VYC teams will be evenly allocated across conferences based on the previous season's final finishing order after finals completed, as determined by Big V.

### **1.3.2 Promotion and relegation**

Strict promotion and relegation systems will be operated in all Big V competitions, according to the following:

#### Promotion

The team that wins a divisional championship will be promoted provided they meet the following criteria.

  5. Promotion and marketing of associations teams (including game day presentation);

#### Promotion process:

1. By the end of August each year the league will call for entry applications from Associations for the following season and are required to address the guidelines in Rule 1.3.2 (a) and be submitted by the closing date set.

2. An assessment panel with a minimum of three (including the Competitions Manager) will review each annual entry application and may seek further information and/or provide feedback in accordance with guidelines in Rule 1.3.2. (a);
3. The assessment panel will make a recommendation to the Committee;
4. The Committee will approve which teams will be accepted for promotion. These teams will be informed prior to the Senior Representative Commission ACM and a formal announcement will be made at the same ACM.

## Relegation

- b) Strict relegation will be on the basis of a team finishing on the bottom of their division ladder or on the recommendation of the Committee.

### Relegation application process

1. An Association may apply for relegation to a lower division of any of its teams based on its own assumptions about future playing strength, financial capacity or other reasons;
2. An assessment panel consisting of a minimum of three (including the Competitions Manager) will review all team's performance and/or entry application and make a recommendation to the SRC Common teams that should be relegated or not accepted;
3. The Committee will approve which teams will be relegated or entry applications that will not be accepted, teams will be informed prior to the Senior Representative Commission ACM and a formal announcement made at the same ACM.

### (c) Considerations in divisional restructures

A player who was born outside the Asia/Oceania region and is not an Australian citizen, Permanent Resident or Refugee (Refer Rule 5.1.3 (e))

#### Category B

A player who was born inside the Asia/Oceania region who averaged greater than 50% of available court time in the past NBL or WNBL season.

For players returning from an overseas league, average minutes played shall be determined from the season just completed. If minutes played cannot be produced by any player who played in any of the above overseas leagues the player would be treated as a restricted player;

2. For the purpose of this rule, a player who has moved to Australia before their eighteenth birthday and has established residency shall be considered to be an Australian citizen. The player will require a FIBA special player licence for Senior State Championship only.
3. Should a player meet the criteria of Category A and any of the Category B criteria, the player shall be deemed a Category A player.

### **5.1.2 Unrestricted player status**

The principles adopted in categorizing NBL/WNBL or other overseas league players as unrestricted are as follows:

- (a) The player does not rank in restricted player category A or B;
- (b) Players who have played more than 100 Big V elite stream games at the Association, which the player is to be registered. This criteria cannot be used on Category A players;

- (e) Asia/Oceania born players; (require approval from BA)
- (f) Players with Refugee status.

Note- All teams in Senior Big V Championship will no longer require a FIBA Oceania License to participate. FIBA Oceania licenses are only required in the the highest competition of the state BV Elite League. These Big V players will however still require BA approval.

### **5.1.3 Restricted and foreign born player procedures**

- (a) Each Association shall notify the league, on a Big V Foreign Born Player Declaration Form of the names of all restricted players and/or non-restricted players with citizenship other than Australian registered to play in any of their teams, indicating the basis of their restriction and residency status;

Any games in which the replacement-restricted player participates may not be counted towards the original restricted player's finals eligibility. Should the number of restricted players qualified to play finals exceed the number allowed in Rule 4.1.1, the Association will nominate, in writing to Big V seven (7) days prior to the commencement of the finals, which restricted players will

compete for that Association in the season's finals. The replacement-restricted player must comply with the category mix in Rule 4.1.1. No subsequent amendment to the restricted player nomination list will be permitted under any circumstances;

- (c) The replacement restricted player must be capable of qualifying for the finals for the application to be considered;
- (d) Big V must be notified in writing of the replacement of a restricted player and the restricted player being replaced, by sending an updated Foreign Born Player Declaration Form, prior to them participating in a Big V game;
- (e) Registration requirements for restricted players are as for any Big V player and for foreign born, including Asia/Oceania born players and permanent residents, approval must be obtained by BA to be eligible.

#### **5.1.4 Australian citizenship**

A player who gains Australian citizenship through naturalisation must lodge certificate of Australian citizenship with Big V prior to participating in the league as a non-restricted player.

#### **5.2 Registration**

It is the Association's responsibility to ensure the correct registration procedure (online system) is followed and completed (and a confirmation email is received) before playing a player:

- (a) Before any player, coach, assistant coach or manager of any Association team is eligible to participate in the Big V they must be registered via the online system and players must be assigned to each team in which they will participate. A team that plays an ineligible player who is not both registered and assigned to the team will forfeit the game;
- (b) Any player that has played at least in one game in the elite senior stream of Big V/BV Elite League and then returns to play in the development league will be classified as "playing down". This player may only continue to play down in the development league until at such point there is still enough matches remaining for them to qualify for finals for that development team league. A team that plays an ineligible player down in a youth division that is not capable of qualifying for the finals for the youth division will forfeit the game and be fined; (\*Refer to Appendix 1)
- (c) No new player may register to play within a division post the cut off period for finals qualification lapsing within that division. This player would be considered ineligible and the team shall forfeit the match and be fined;

- (d) Registration of a player who is not an Australian citizen will not be considered complete until such procedures have been completed allowing Basketball Australia and where necessary FIBA Oceania to authorise the player to play in writing. A team that plays an ineligible player that does not have BA or FIBA authorisation will forfeit the game and be fined;
- (e) A player's league registration will remain in force from the date of registration in that competition year until 21 days after the last grand final;
- (f) In all divisions, a player must turn at least 14 years of age during the year in which the player seeks to register. Any teams that plays an underage player will automatically forfeit the match and be fined;

### **5.3 Release for state and national commitments**

Any player that misses participation in Big V scheduled games whilst representing their state in National Championships or a country's Nationals on official national duties at national camps or playing for their country shall have those games missed due to such participation, included in the calculations for Big V finals eligibility.

The player must have played a minimum of four (4) games for that Association to be eligible to have the missed games included in the calculations for Big V finals eligibility. Applications must be in writing to Big V at least fourteen (14) days prior to the start of the finals and the details of games missed and a copy of the release for state and/or national commitments must be included, such commitments prior to registration will not be considered in determining eligibility. No applications will be considered outside these timelines.

### **5.4 Clearances**

#### **5.4.1 Player clearances**

Any player who has registered and been assigned to a team of one Big V Association in any one competition year may not transfer to another Big V Association in that same competition year, after one calendar month from round one. Under special circumstances the Competitions Manager may accept the clearance outside this period; such a clearance must not affect the fairness of competition within the division.

Players who have not registered in the current season can transfer to a Big V Association up until there are insufficient games remaining to qualify for

the finals.

Associations must approve clearance requests from players that are not required prior to the player clearance closing date to ensure the player is not disadvantaged and is free to secure an alternative playing opportunity. Such transfers or transfers across competition years are subject to the approval of the player's original Association and such approval may not be unreasonably withheld. An Association may refuse a player a clearance for any one or more of the following reasons:

- (a) The player has a demonstrated outstanding financial commitment to the Association, holds association property or is under contract to the association;
- (b) The player is a non-Australian citizen on an Association sponsored visa;
- (c) The Association has expended money on behalf of the player in anticipation of that player remaining with the Association in that season.

If the Association wishes to block a player's clearance this must be submitted in writing to Big V outlining reasons within the timelines. This will then be reviewed by Big V and notifications sent to all parties on the decision. No information will be considered post the deadline cut offs.

It is the sole responsibility of the destination Association to ensure that the required clearance is obtained before any such player is played. Playing of an uncleared player will result in an automatic forfeit of any matches the player has played and a fine.

#### **5.4.2 Clearance process**

The process for obtaining a clearance varies depending on where the player is transferring from and the specific procedure may vary. It is the destination Association's responsibility to ensure the correct procedure (either online system or use of hard copy forms) is followed and completed (including email confirmation) before registering or playing a player, the following is provided for guidance:

- (a) Clearance between Big V Associations  
For clearances between Big V Associations where the player last played in a Big V competition.

Clearance processes for Associations and players are;

1. Destination Association submits clearance online, irrespective of the time period that has lapsed since the player last registered
2. Players prior Association has 7 days to respond with approval/non-approval
3. In the event a response has not been received after 7 days, the destination Association is to inform Big V
4. Big V will then send a notice to the players prior Association advising

they have 7 days to respond, Failure to respond will result in the player automatically being cleared by Big V.

- (b) Clearance from another Australian Association  
For clearances where the player last played in another Australian senior representative competition, the player will complete a Basketball Australia domestic clearance form and forward it to their former Association for approval irrespective of the time period that has lapsed since the player last registered;
- (c) Clearance from a non-Australian Association  
For clearances where the player last played (please ensure the correct Association is contacted for the clearance) in a relevant overseas competition, the destination Association will apply for an international letter of clearance on behalf of the player, via Basketball Australia if appropriate irrespective of the time period that has lapsed since the player last registered.

## 5.5 Finals qualification

- (a) To be eligible to play in the finals a player must have played a minimum percentage of games for the Association's respective team in that season. For the purpose of this clause:
  - 1. For the player development stream the minimum percentage is 30%;
  - 2. For the Association elite stream the minimum percentage is 40%;
  - 3. A game played shall be credited if the player's name appears in the statistics file transmitted to the League and have more than 0.00 in their minutes played column.
- (b) When calculating player's games played and where the number is not a whole number, then the number will be rounded up to the next whole number e.g. 19.1 goes to 20;
- (c) A player, who due to injury/illness fails to qualify for the Big V finals under Rule 5.5 (a), may apply in writing to Big V at least fourteen (14) days prior to the start of the finals for that division for permission to play in the finals. Applications subsequent to that timeline may only request consideration of injury/illness, which has occurred within the fourteen (14) day period prior to the start of that division finals. This is subject to the player having already played 4 games during the current season.  
In considering any application the Competitions Manager shall have regard only to two criteria:
  - 1. Whether the player is a bona-fide player for the team as indicated by the player being registered and assigned to the team prior to the date of injury/illness or commencement of the season;

2. The validity of the injury or illness preventing the player from otherwise qualifying to play as indicated by submission of a medical certificate with dates the player was medically unfit to play from a suitably qualified medical practitioner.
- (d) If an Association is found to have played an ineligible player in any finals game that team will immediately forfeit that game. The matter will be referred to the Competitions Manager for further action as may be determined appropriate in circumstances, including but not limited to a fine, penalty, or forfeit final series.

The game program cover shall use the League provided template. Where a visiting team provides details of a naming rights sponsor, this is to be included in the game program.

### **7.5.5 Pre game procedure**

By 5:00pm on the Monday prior to a fixtured game, the home Association must send a welcome note to the visiting Association and a copy to the League office to notify of arrangements for the game, in particular uniform color to ensure a clash does not occur. ### **7.5.10 Floor maintenance**

It is the responsibility of the home Association to ensure that:

- (a) Floor wipers are available during the game to mop dry any wet spots which may be on the floor. Technical officials are not expected to perform this duty. At least two floor wipers (one each end) of at least 10 years of age are to be provided throughout the game, equipped with broom or other suitable style floor wipers. For hygiene reasons, it is not acceptable for children acting as floor wipers to be on hands and knees using cloths/towels;

- (c) A blood kit in accordance with the Basketball Australia Blood Policy must be available for use as required by a senior Association official.

### 7.5.11 Court Announcer

It is the objective of the Court Announcer to:

- (a) To play warm-up music prior to each game and appropriate music during all time outs, game breaks and at half time;
- (b) To introduce teams/players/coaches/Referees to the spectators;
- (c) To play national anthem prior to each game in accordance with Rule 7.3.2(b);
- (d) To provide information relative to the state of the game that may not be readily available to the spectators;
- (e) To promote sponsors at appropriate times;
- (f) To provide live reads as advised by the league;
- (g) To recognise official guests to the audience as a whole;
- (h) To provide a legitimate commentary on the game (as detailed below).

#### Specific guidelines:

1. The Court Announcer is an official of the game and as such visiting teams should be treated in an equal way. Neutrality extends to what is said, not necessarily how it is said. It is reasonable for the Announcer to use more emphasis in their tone in relaying positive information about the home team in comparison to similar information on the visiting team;
2. There shall be no commentary while either team has possession of the ball in their offensive half (front court), nor after a player has had the ball placed at their disposal while shooting free throws (refer to game limitations - point 3). Likewise, music shall not be played while the Visiting Team has the ball in their front court;
3. Comments that take longer to make, during the course of play, than the time it takes a Team to progress to the halfway point of the court are too long!
4. Game Commentary should be limited to providing the following information at the appropriate times:

- i. Scoring - who scored, three pointers, accumulative individual totals and an occasional mention of assists may be appropriate;
- ii. Foul - Who fouled, numbers of fouls both individual and team. Who is shooting free throws and how many (if required) plus the end result of the attempts;

NOTE: The Referee's call should not be pre-empted in any way. The announcer must wait for the Referees decision and signal - DON'T GUESS. Incorrect information can create confusion and embarrassment to all.

- iii. Violation - name the violation - NOT the player;

- iv. Time out - which team called it and how many they have had;
  - v. Rebounds, blocks and steals - can be mentioned if required and appropriate, but who made turnovers is generally not appropriate for comment.
5. The Court Announcer is not a cheerleader, barracker, noise generator or game critique. The principal duties are to pass information to the crowd, encourage it, but not incite it. Modifiers, which imply critical analysis should be avoided (e.g. nice try, great block, super shot, etc.) as an editorial description;
  6. Any comment reflecting on the performance of the Referees, either positive or negative, is not allowed. Similarly any criticism of the League or its staff or Commission is not allowed. Critical remarks of any type towards players or coaches are not acceptable (including pre-taped comments played on the PA system);
  7. Appeals to the crowd for noise/support are not permitted. Home teams must generate their crowd support and noise through methods other than the Court Announcer, e.g. team mascots, cheer leaders, etc.;
  8. The Court Announcer should be an official conduit between the game Referee and the audience in conveying information relative to rule decisions that may not be apparent to the spectators. There are often timing and rule confusions that occur between the Referees and the score table, or between the Referees themselves resulting in game stoppage and consultation. The Court Announcer should be able to clarify these circumstances with the spectators after they have been resolved. This is an important function;
  9. The Court Announcer has the duty of playing warm up music prior to games, the pre-game introductions, playing the national anthem in accordance with By-law 7.3.2 and playing appropriate music (no profanity) during all time outs, game breaks and at half time;
  10. Recognition of official League sponsors and guests are a part of the Court Announcers duties. These announcements should be limited to pre-game, time out and quarter/half time breaks. The Court Announcer will be obligated to acknowledge any Big V naming rights sponsor and any other Big V major sponsors as authorised by the Committee.

If circumstances prevent webcasting at the game conclusion, a subsequent webcast shall be performed within forty eight (48) hours of the game concluding;
- ii. Statisticians used by the Association must be Level 1 qualified and a staff of at least two Statisticians must be used for each game;
- iii. The statistics for the game must be accurate and must reflect the official score sheet when submitted to the League;
- iv. Where the League provides electronic versions of team files for use, then Associations must use these team files at all times and players must not be manually added unless authorised by Big V;
- v. Statistics in the form of a box score shall be provided to each team immediately at the conclusion of each quarter;
- vi. Following reconciliation of the statistics and score sheet, the game shall be finalised within the statistics software program and each team shall be provided with a copy of the validated box score

  - VII. Be retained in original format to be available to the GM on request for at least fourteen (14) days after the game.
- Note 1: It is recommended that the video camera is placed in an elevated position on the opposite side of the court to the score table, generally in line with the court centre line in order to have an unobstructed view of the whole court surface, score table and both teams benches when panned.
- Note 2: Associations may choose to use close up shots and or alternative camera angles particularly when live streaming games, however a video recording meeting the requirements of 7.5.14 (b) and to be uploaded in accordance with 7.5.14 (c) must also be made. It is mandatory that close up shots are not used while the ball is in play, and as a guide should be able to see the full half court.
- (c) A video recording meeting the requirements of 7.5.14 (b) must be uploaded by 5.00pm on the Wednesday following the weekends games:
