

SUBMITTING FEEDBACK TO TECHNICAL OFFICIALS DEPT.

Your feedback is invaluable for the Technical Officials Department (TOD) in assisting the development of officials. This helps the TOD identify areas of training and education that may be required for officials.

Please note that the TOD receive an enormous amount of submissions each weekend, and are not in a position to provide a reply to all feedback submissions.

Please be rest assured your feedback submission however will most certainly be reviewed in detail by the TOD, in which is why they ask for video clips to be submitted within the form.

The TOD reviews all game footage examples provided, and directly follows up with training and education to the referee if there has been identifiable errors in their rules interpretation within that past match. The video clips enable the TOD to directly highlight to the official examples of where they may have made an error and then provide education on correct rule interpretation on that area.

The TOD will contact your Association if they require any further information and respond accordingly if they believe an extended response is required.
